JNT Electrical are a family owned and operated business that pride themselves on designing and installing the best PV array solar system to suit your specific needs. We understand that solar is a long-term investment and that is why our reputation for high quality products and workmanship is what sets us apart from the rest. All of our installations meet and exceed Australian standards, ensuring you get maximum value, safety and power generation for the life time of your system and this is backed up by our ongoing maintenance and support. At JNT electrical, we design and install the best quality PV array solar systems available on the market with Jason being a Clean Energy Council accredited and registered solar installer. Our reputation of high quality products and workmanship is what sets us apart from the rest- as all of our installations meet and exceed Australian standards, ensuring you get maximum value, safety and power generation for the life time of your system.

Inverter Brands: ABB, Enphase, Fronius, SMA, SunGrow
