Halcol Energy Pty Ltd is an Electrical contracting company involved in the supply and installation of first class renewable energy products. We are now reputed to be the largest solar installation company on the Sunshine Coast, servicing the entire South East of Queensland region. The company was founded with 4 staff and sub-contractors to complete electrical work; we now employ all of our own technicians, electricians and accredited solar installers full-time, eliminating the need for sub-contracted labour. Our friendly office staff and teams of installers pride themselves on providing a premium, unmatched service to our Clients.
