MyEnergy Solar and Electrical (My Energy SA Pty Ltd / MyEnergy Engineering) is a South Australian Electrical Services Business based in Adelaide's southern suburbs. MyEnergy provides residential and commercial electrical services. Whilst we engage in all types of electrical works and services, our business has a focus on Remote Area Power Systems, Grid Connected Generation Systems, Pumps, Motor Control and Fuel Generators. MyEnergy has delivered solutions and services to customers ranging from home owners, to businesses including manufacturers, medical professionals, miners, primary producers and retailers, and also to government. Work takes us across South Australia and also into Victoria and New South Wales. Over 60% of our time is spent delivering services outside of Adelaide in rural localities.

Inverter Brands: Fronius, Selectronic, SMA, Victron Energy

Battery Brands: BYD, LG Chem

Solar Panel Brands: Canadian Solar, LG, REC, Suntech
