Hush Energy conducts solar and battery installations throughout Qld using only premium micro inverter technology for higher performance and reliability. Hush Energy interacts directly with Enphase's management and engineers to maintain expert knowledge, plus tests their latest product. We then convert this knowledge into a quality experience for our customers, with professional advice and design of your system. At Hush Energy, we ONLY use the highest quality brands that have gained a worldwide reputation as leaders in renewable energy manufacturing. We use products that are superior in performance and longevity for one simple reason - because we even more passionate about renewable energy than you, our customers!

Inverter Brands: Enphase  
Battery Brands: LG Chem  
Solar Panel Brands: Trina Solar
